

N. C. A. A. Not To Join With Olympic Ass'n

New York, Dec. 29.—The National Collegiate Athletic Association today definitely declined the invitation of the American Olympic Association to join with it in future control of American participation in Olympic games. The vote was 48 to 0 against such affiliation in the present form of Olympic association's organization.

The collegiate association also went on record as favoring "the idea of an organization of a national athletic federation," proposed by Secretary of War Weeks. A resolution to this effect, said in part, "that the question of the extent and manner of the participation of this organization in the proposed National Athletic Federation be left to the executive committee of the National Collegiate A. A. or its board of directors if there is one, for discussion and report one year hence."

During the discussion on this clause Richard Brown of the Y. M. C. A. was asked a hypothetical question as to whether in case of two sets of games for the Olympic games of 1924, one from the American Association and another from some organization perhaps under government control, which entries would be inspected by the International Olympic committee. His answer was that "thoughts of the government sanctioned one would be accepted, although he explained that he was giving his personal and unofficial opinion."

The collegiate association adopted certain recommendations made by the newly formed football coaches association as presented by Charles Daly of West Point. The most interesting of these was the suggestion that the football rules committee prepare an addendum to the football playing rules to provide for the playing of the games by boys of 15 years of age and under suggestions for that purpose. The suggestion was followed by the first boys' system of holding the catch of every punt and ceasing to kick and piling on whenever a boy called "halt."

One of the interesting announcements of the conference was that an intercollegiate boxing carnival would be held at Philadelphia, March 18. Lieutenant

Commander W. A. Richardson of the United States Naval Academy said it would be held under the auspices of the intercollegiate boxing league, which had established a central board of boxing officials to function like the central board of football officials, and designed to serve universities and colleges.

Commander Richardson explained that the rules placed a ban on knockouts and that a contestant was forced to retire when incapacitated. Penalty in points for holding and hitting and forbidding referees to touch boxers, were other differences between collegiate and various codes governing professional boxing, he said.

COLUMBIA WINS CHESS

New York, Dec. 29.—Columbia University's chess team defended its supremacy in the "C. H. Y. P." League today by defeating Harvard in the last round of the annual tournament. This is the sixteenth time Columbia has won the championship. Princeton, by defeating Yale, took second place.

The final standing of the teams follows:

Team	W.	L.	T.	Games
Columbia	10	2	5	27
Princeton	1	2	5	63
Harvard	1	2	5	7
Yale	1	2	4	8

Harvard has won the championship nine times and Yale twice and Princeton once. In 1909 Harvard and Yale tied for first place and the play-off resulted in another tie.

FOR OFFICERS OF THE U. S.

LAWN TENNIS ASSOCIATION
New York, Dec. 29.—Julian S. Myrick of this city was re-elected today as president of the United States Lawn Tennis Association in the list of officers and executive committee members named for 1922 by the nominating committee. They were proposed for election at the annual meeting in February.

The committee's recommendations

follow:
President, Julian S. Myrick of New York; vice president, Dwight P. Davis of St. Louis; secretary, Charles Garland of Philadelphia; treasurer, Albert Y. Leach, Jr., of Washington D. C.

Delegates at large to serve two years: R. Clifford Black of New York; Harry S. Knox of Chicago; Henry C. Wick, Jr., of Cleveland, Ohio. Sectional delegates are recommended by their various sectional associations where such bodies have been formed, and in those cases their election by the sectional organization is merely confirmed by the National Association.

The New England section nominee to serve two years was Edwin Sheafe, Boston.

MITCHELL MAY BE TRADED

FOR JOE DUGAN OF ATHLETICS
Johnny Mitchell, the little shortstop who came to the Yankees from Vernon of the Pacific Coast league last winter for what was then a record price for a minor leaguer—\$25,000 paid in cash and six players—finishes himself the center of Yankee trading rumors. Mitchell was named in the original trade negotiations which the Yankees started for Bob Veach of the Tigers and he remains in the new dicker for the outfielder.

Mitchell now is reported to be headed for the Athletics in a trade for Joe Dugan: an endeavor to land Baby Doll Jacobson, and he has been dangled before the eyes of Clark Griffith in talk about one of the Athletics' needs.

It is to be hoped that Mitchell lands where he can get out there and play every day. It seems a shame to harp on the scarcity of first class players, and then find a youngster like Mitchell doing nothing except picking up splinters on the bench. Scouts pronounced Johnny the star of the Coast league season of 1920 and they declare this position is well deserved up to Mitchell's form during the season of 1921.

Chicago Grain Market.

Chicago, Dec. 29.—Assessments that a liberal amount of wheat would be bought for Russian relief did a good deal today to strengthen the wheat market. Closing prices followed unsettled were 1-4 to 1-5-8 net higher with May 1-17 3-8 to 1-17 1-4 and July 1-16 5-8 to 1-16 5-8. Corn finished 2-5 off to 5-8 up, oats 2-3-4 to 2-3-4 to 7-8 advance, and provisions unchanged to 12 cents lower.

Upturn in the value of wheat were preceded by a brief display of weakness due to bearish aspects of the government report on the 1921 crop. Rallies, however, ensued owing largely to generally accepted but erroneous opinions that the government figures today on the 1922 crop would prove bullish. Later a report was circulated that 15,000,000 bushels to 18,000,000 bushels of wheat would be acquired for Russia. It was at this juncture that top prices of the day were reached and declined that more than 5,000,000 bushels would be bought failed to cause much reaction in the final dealing. The government report on winter wheat was received after the close and was construed, at least by some authorities, as bearish showing a slightly better condition than expected and a larger acreage.

In the corn market, December delivery was under pressure from hedging sales but May and July were strong as a result of Russian relief purchases and the reduction of the government crop estimate. Oats advanced in response mainly to the government report.

Sharp declines in the hog market weakened provisions.
